Course is only applicable to Singaporeans 50 years old & above (as of 2018).
Course is eligible for SkillsFuture Credit (course fee only).

Certificate in Interior Design

The courses are designed for beginners to help them to acquire fundamental skills in Interior Design. The training includes technical drafting knowledge, basic 3D modelling, basic computer drafting skills and visual presentation techniques that are essential skills for interior design.

Course Fee (Package) (after subsidy): $1300
Registration Fee: $32.10
Miscellaneous Fee: $16.00
(Inclusive of GST, excluding materials)

Commencement
Class will commence in the week of 2 Jan 2018 (Tuesday).

Interior Design 1 - Technical Drawing (10 sessions x 3 hours)
This course aims to introduce to students the basic knowledge of drafting as a communication tool. The understanding of architectural, interior design and technical standards will help them to develop the ability to carry out measured drawings of spaces and 3D products.

Interior Design 2 - Basic Computer Drafting (10 sessions x 3 hours)
This course focuses on the fundamentals of computer drafting that students will develop using computer as a drawing and manipulation tool in the preparation of production drawings.

Interior Design 3 – Basic 3D Modelling (10 sessions x 3 hours)
This course covers the use of 3 dimensional modelling programs to create visualize 3D ideas with basic functions of modelling, exploring materials and modification of lighting. Student will learn to use the software intuitively through a process of familiarization and duplicating existing notable contemporary environment design.

Interior Design 4 - Colour Perspective (10 sessions x 3 hours)
This course aims to develop basic skills necessary for an interior designer to communicate visually. This includes developing skills in freehand drawing / sketching, perspective drawing, the use of colour and the rendering of drawings.
