

STUDIO RESIDENCY @NAFA

OVERVIEW

The Studio Residency @NAFA (SR @NAFA) aims to support exceptional students, staff and alumni for professional development and foster collaboration and interdisciplinary exchange amongst staff, alumni, practising artists and designers locally and internationally.

The SR awards the selected applicant studio space, where they are also allowed access to various workshops and facilities for their creations during the residency. The 1 to 2-month residency programme enables candidates to create, interact, collaborate and build professional networks.

In addition, NAFA residency participants may interact with other invited local or international artists or designers during the residency.

WHAT DOES THE STUDIO RESIDENCY COVERS?

Apart from studio space and access to various workshops and facilities, applicants can specify other support areas needed during their residency. Workshops are subject to availability during the residency. The Special Projects Unit (SPU) will work closely with residents to accommodate their needs. Residents are expected to be self-sufficient; limited technical support will be available.

Applicants may explore the resources and facilities at NAFA at <https://www.nafa.edu.sg/about-nafa/campus/campus-facilities>
