

**Showcase Title - Artsy Infusion: *Uncovering the Ukulele***

15th January 2021 (Friday) 4.30pm

Presenter: Lee Guoliang

In this showcase, Lee Guoliang, a Champion in Sungha Jung Guitar Competition and an appointed Ambassador of Yamaha Guitars by Yamaha Music Singapore, will share with us different musical possibilities and facets of the Ukulele – a small instrument that punches as effectively as a solo instrument.

Lee will lead us through a brief history of the instrument, its varying types and construct. Additionally, he will demonstrate how audiences can be familiar with basic chords using 'The Calypso' strumming pattern, in addition to performing a Fingerstyle Tune and right-hand plucking techniques.

**Showcase Title - Artsy Infusion: *Discovering Children's Book Illustration***

Date and Time: 16<sup>th</sup> January 2021 (Saturday), 11.30am

Presenter: Patrick Yee

In *Artsy Infusion: Discovering Children's Book Illustration*, local veteran illustrator Patrick Yee, a two-time winner of the prestigious MacMillan Children's Picture Book Award (UK), will treat us to insights on using pastels and watercolor to depict a story. Children's Book Illustration, an 8-week course conducted by Yee, is one of our long running signature courses that is well attended by parents, schoolteachers and budding artists who wish to start producing their very first Children's Picture Book.

This course encapsulates a range of mediums such as chalk pastels, crayons, watercolor, collage, printmaking, in addition to guiding learners on the fundamentals of character creation, pagination and storyboarding.

**Showcase Title - Design Essentials: *The Nucleus of Interior Design***

16th January 2021 (Saturday), 3pm.

Presenter: Casey Boo

Have you ever aspired to create and live in a beautifully designed residence of your own? Have you ever desired for skills in transforming ideations into architectural drawings? Look no further! Our Certificate in Interior Design provides you a platform to deep dive into the art of making things happen. Technical drawing is a vital aspect in all design work, which forms the basis of presentation and construction within a design project.

In this certificate course, our Senior Lecturer for 3D Design, Casey Boo, will explain how technical drawing is a drafting technique which enables the designer to communicate design concepts and detailing to the builder. It is also used by the builder to construct with due diligence.

Casey Boo will also demonstrate fundamental manual drafting, as well as drafting techniques for a simple floor plan, 3D sketch of an object and rendering of an object.

**Showcase Title - 'Design Essentials': *The Core of Fashion Design***

16<sup>th</sup> January 2021 (Saturday) 5pm

Presenter: Chew Han Lim

Want to fulfill your dream of becoming a fashion designer? Wait no longer! Our Certificate in Fashion Design gives you the experience of a design process and practice principles to elevate your fashion designing skills whilst remaining relevant with global fashion trends. This course is fitting for any learner who desires to upskill or reskill their capabilities for the fashion industry and empowers you to take a bold step into the fashion arena.

In this certificate course, Chew Han Lim, our Program Leader and Senior Lecturer for Fashion Studies, will share current industry trends and demonstrate fashion design techniques such as 'inspired by line', 'Zigzag line and curve line', paper pattern production and prototyping using quarter scale patterns.
