

SPECIAL PROJECTS AWARD

OVERVIEW

Special Projects aim to cultivate exceptional talents among students, staff, and alumni while connecting to the local and international arts and design scene.

The proposed art or design projects must have substantial content and make an impact locally or globally. They should reflect and raise the Academy's profile as one that is deeply engaged with arts and design practice and innovation, local and global issues, cultures, and heritage.

The Special Projects Award (SPA) supports outstanding and passionate graduates and practitioners across the creative arts and design through special projects' collaborations. SPA seeks to promote deeper student-staff-alumni-industry engagement in innovative practices through collaborations.
